

MEET THE TEAM!

Hi, my name is Jade. I am the team leader for the Group Practice Team. It is incredibly exciting to be part of the only team in Newham that currently provides continuity throughout the antenatal, intrapartum and postnatal period; I strongly believe that the future of midwifery will flourish if it continues to move in this direction.

Hi, my name is Humaairah. Having trained in Newham to become a midwife and consequently starting my career in Newham, I am reminded each day of how privileged I am to care for such a diverse group of women and their families. Every woman is different, each with their own stories and each bringing me something new to learn each day. I am in constant awe of how powerful the women I care for are, and I am incredibly passionate about ensuring that they receive the best care possible throughout their pregnancy journey. Being part of the Group Practice team allows me to do this by being the named midwife for the women under my care, allowing me to build a relationship with them and their families and getting to know them in order to be an advocate for them throughout their antenatal, intrapartum and postnatal journey.

Hi, my name is Rachel. As part of the Group Practice Team I support women and their families by providing women centred care. Through continuity of care I hope to increase women's satisfaction of their antenatal, intrapartum and postnatal care.

Ciao! My name is Oriana. For me continuity of care is a very powerful tool in providing the best possible care to women and in ensuring that they have a positive pregnancy experience, and I am very lucky to be able to offer continuity of carer to the women living in Newham.

KATY

Hi, I am Katy. Starting my career within a busy maternity unit, I have spent various amounts of time in each area of the service within the hospital. However I always found that I enjoyed building a connection with women and their families. By getting to know each client I could tailor my care to ensure they had the experience they wanted, or help them through tough situations effectively. Being part of the Group Practice means that I can continue that care throughout the pregnancy, be a familiar face during birth, someone who knows the individuals wishes and can advocate for them, and support them through those special days with their new baby. Providing women and their families with the opportunity to have personalised experiences throughout their pregnancy, birth and postnatal period is so important. Each family is unique and each birth a new miracle. I want that opportunity to be available to all.

NAFISA

Hi, my name is Nafisa. The thing I love the most about my job is the partnership that forms between the woman and the midwife throughout her pregnancy journey. Providing continuity of care and putting women at the centre of their care, allowing them to take control of every decision about them is very rewarding. The joy of witnessing new life entering the world, the birth of a new family, or the extension of an existing one is incredible.

Hi, my name is Lizzie. I am extremely excited to be part of this wonderful team and I look forward to caring for you! I am passionate about providing continuity for women and their families - pregnancy is a magical journey and it is a privilege to be a part of this. I believe that it is important to empower women in making choices through education, support and compassionate care.
